

2018 CONSTRUCTION PROJECTS

Union Pacific Railroad Bridge

Bridge construction over I-29 near Nebraska Avenue. Construction crews will reconstruct the north half of the bridge and then demolish the south half in late 2018. Full interstate closures will be required during demolition.

Dual, Divided Freeway, Phase II

In late June, construction crews will shift I-80 eastbound/I-29 southbound interstate traffic to the newly constructed lanes. The I-80 eastbound exit ramp to 24th Street will shift to its permanent location east of where drivers exit today.

East System Interchange, Phase II

Complete construction activities for the Phase II projects late this spring.

East System Interchange, Phase III

Open the I-29 northbound detour ramp to South Expressway in early spring. Bridge construction, grading, and paving will be the main construction activities in 2018 and should not require any major closures of the interstate or interstate ramps. Minor I-80 eastbound traffic shifts will occur west of the Madison Avenue Interchange throughout the year.

Iowa DOT Highway Maintenance Projects

- **I-29 Northbound at Avenue G – Bridge Repair**
- **I-29 Northbound at CP&P Railroad – Bridge Repair**
I-29 northbound on-ramp at 25th St. will be closed during this project.
- **I-80 Eastbound/Westbound at Franklin Avenue – Bridge Repair**
I-80 eastbound on-ramp at Madison Ave. will be closed in the afternoon/evening during this project.
- **I-480 & West Broadway – Pavement Patching**
- **U.S. 6 at I-80 - One lane in each direction & temporary signals**
